**SUBJECT: Thyroglobulin Antibody (TGAB) and Thyroperoxidase Antibody (TPO) Testing**

Asante Rogue Regional Medical Center Laboratory is pleased to offer Thyroglobulin Antibody and Thyroperoxidase Antibody testing performed in-house. These test will be performed daily at our ARRMCMC laboratory.

The specimen requirement is a yellow top serum tube (SST), or a red top tube. Test methodology and reference ranges will remain the same. To view these requirements, please refer to our electronic test catalog:

<http://asantelab.testcatalog.org>

New test codes are:

- Thyroglobulin Antibody
  - EPIC Order: TGAB LAB1232370
- Thyroperoxidase Antibody
  - EPIC Order: TPO LAB1232371
- Thyroglobulin and Thyroperoxidase Antibodies (Panel)
  - EPIC Order: TAB LAB1235435

For additional information, please contact Jamey Licata, Chemistry Technical Specialist, at (541)789-4175, or Sherry Sorenson , ARRMCMC Laboratory Outreach Services Manager, 541-789-5310.
